

## PREMIUM (R&O) "HC" TURBINE OILS

ISO Grades 32, 46, 68, 100

## **Product Description**

These premium R & O (rust and oxidation inhibited) HC Turbine oils are zinc free, formulated with HVI paraffinic hydro-processed base stock and selected additives to meet lubrication requirements of various turbine systems, hydraulic applications, and air compressors. The products are characterized by outstanding oxidation stability and provide excellent anti-foam and air release characteristics.

## **Applications**

These oils are recommended to meet the requirements of steam turbines, land-based gas turbines, and hydraulic systems where anti-wear characteristics are not a requisite. Other uses include heat transfer systems, gear cases, friction clutches, and other similar industrial applications for long trouble-free service. Premium (R&O) "HC" Turbine Oils have excellent thermal/oxidation stability, rust-prevention, anti-foam, and water separation properties.

## **Typical Properties**

Property	ISO 32	ISO 46	ISO 68	ISO 100
Appearance	Clear/Bright	Clear/Bright	Clear/Bright	Clear/Bright
Color, ASTM D-1500	<0.5	<0.5	<0.5	<0.5
