

PREMIUM POWER STEERING FLUID

Product Description

Premium Power Steering Fluid is formulated from highly refined mixed-base (naphthenic/paraffinic) mineral oils and chemical additives to meet the performance demands of power steering systems. This product is designed to protect power steering systems against pump deterioration by preventing abnormal oxidation, foaming, and wear. It is compatible with commonly used seal and hose materials to ensure excellent service life from these components. This fluid offers excellent low-temperature fluidity and high fluid shear stability at elevated temperatures.

Applications

This product provides performance characteristics in accordance with the following specifications:

- General Motors 9985010, Part No. 89020661 / 1050017 Quart
- Ford ESW-M2C128-C&D
- Daimler-Chrysler MS-5931E, Part No. 4318056
- Navistar TMS 6810, 6811
- Volkswagen TL-VM-570-26
- International Harvester 990625C1

Meets service demands for most other power steering applications and is suitable where automatic transmission fluids are specified. This product is **not recommended** for Honda power steering systems or requirements of Chrysler Fluid specification MS-1872-T composed of a mineral oil without additives.

Typical Properties

Property	Value
Appearance	Lt. Pale
Flash, COC, Deg F.	360
Pour Point, Deg F.	-40
Viscosity, cSt	
At 40°C	38.8
At 100°C	7.52
Viscosity Index	165
Brookfield Viscosity @ -40°C, cP	< 40,000
Oxidation Stability, ASTM D-2272	> 200 min

*The values shown are typical of current production. Some are controlled in the manufacturing process, while others are not. All of them may vary within tolerable ranges.
